Technical Instructions....

1. Attach one microphone to the cello, close to the bridge
2. Attach your midi pedal/device to your computer
3. Open the accompanying Max MSP patch and follow the numbered steps
  1. "Setup"
  2. Turn on I/O
  3. "Preset Levels"

Prepare your selections from the following page no more than 30 minutes before your performance.

Consider one item from each column, either chosen at random or carefully considered.

You are young

The cello is an egg that must be hatched

You are old

The cello is a forest that must be grown

You don't know where you are

You've been here before

The cello is a cloud that must be formed

You're tired

The cello is a tide that must come in

You're ready

You wish there was more

You have more than enough

[PRESS]

Always moving, growing  
Never looking back  
Until you've gone too far

[PRESS]

Look back.  
Take one more step.

[PRESS]

End.
